CAPABILITY STATEMENT
ARCHITECTURE & PLANNING GROUP

The background of the image features a series of thin, dark grey lines that intersect at various angles, creating a complex, abstract geometric pattern. The lines are of varying lengths and orientations, some extending from the edges of the frame towards the center, while others are shorter segments. The overall effect is one of dynamic movement and structural complexity.

Introduction

Founded in Egypt in the late sixties, and with active presence in the UAE since 1973, APG is a leading multi-disciplinary A/E firm that is fully committed to the construction industry, providing a comprehensive suite of services ranging from Master planning, Architecture, Interior design, through to Civil & Structure and MEP Engineering. Strategically located in the MENA region, APG operates through eight offices in Dubai, Abu Dhabi, Al-Ain, Doha, Riyadh, Cairo, Alexandria, and Khartoum, with overall workforce of more than 400 highly dedicated subject matter experts.

APG's main differentiator is in mastering the business process; APG considers itself a strategic partner to its clients, specifically at the very early stages of any given project. Our clients highly value APG's support in building up stringent and valid alternative business cases for their projects & investments, and our ability to visualize their visions and ideas and experiment its feasibility. This strategy is key to client loyalty and trust, and has been recognized by the high rate of repeat business and referrals. Our formula of success is not only limited to that, but also extends to our ability to collaborate with many international firms in delivering numerous high profile projects, reflected in our diverse and rich portfolio. Another differentiator is excellence in design achieved by responsibly shaping the built environment through architecture that, not only maps the character of the place, but is also inspiring, stimulating and blends the built realm with natural surroundings. APG's ability to provide one-stop development integrations, ranging from architectural design & planning through to interior design and engineering, along with our extensive 40+ local UAE experience, is another key to the firm's success.

APG is currently leading a number of diverse high profile projects ranging from hi-rise mixed use buildings, to hospitality, residential, commercial, educational, and governmental buildings along with a huge portfolio of mosques. Our clients, ranging from public to private sector organizations & developers, have come to trust the firm's group of experienced specialists, who consistently deliver solutions that encompass knowledge, insights, technology, collaboration, reliability, and integrity. This is not only limited to their design team, but also extends to their site supervision group of professionals.

APG Vision

Innovative Sustainable Built Environment.

APG Mission

Providing the utmost quality of services with the most innovative Architectural and Engineering Solutions to our clients through professional motivated employees. We believe in setting the highest standards and the best practices of industry through our commitment to Environmental, Economic, Social and Cultural Factors.

APG Values

With all the efforts to achieve our strategic vision and mission at all organization levels, we refer to our shared values that remain the prime reference at all times.

Exceeding Clients Expectations

We commit to utilize our capabilities, provide optimal services and modern technology to meet our top priority ultimate goal.

Innovation & Creativity

We are committed to applying advanced research and development techniques to create solutions that add value to the Built Environment.

Talent Engagement

We are continuously building a culture based on team spirit, motivation and talent management to our most valuable asset.

Excellence and Quality

We strive to provide the highest quality standard of services with emphasis on efficiency & effectiveness

Quality Policy

The ability to maintain quality in APG is validated by attaining the ISO 2008 certification. We believe in continuous development of our services and in continuous education for our team in order to compete in today's knowledge economy.

Al AZIZ Mosque

Reem Island Abu Dhabi Plot RT1-P1

PROJECT DETAILS

Client	: General Authority of Islamic Affairs & Endowments (AWQAF) Donated
BUA m2	: by HAMG
Completion:	5,100 M².
Cost (AED)	: 2015
APG role	: 37,536,000
	: Lead Consultant, Concept Design, Detailed Design, Engineering

A mosque that rises with finesse in Reem Island, standing out with a powerful concept & breath-taking Contemporary aesthetics. An escape from the materialistic world of today to get closer to the Metaphysical aspect of life & to God. The most striking feature is the mural that is built using special materials that extract the light from the Interior by night, to project the 99 names of Allah with outstanding Arabic calligraphy on the Exterior.

The Dome & the Minaret are slightly deconstructed, along with modern materials intervening, in order to follow a Contemporary theme. The entire Ensemble is unique, daring & considerably diverging from the conventional aesthetics & features of any other mosque.

Components:

- 3 floor levels for: Secondary Prayer Hall, Main Prayer Hall & Women Prayer Hall
- Secondary Prayer Hall level for Men Prayer Hall + Ablution Area & Toilets + Services
- Main Prayer Hall level for Men Prayer Hall + Main Entrance
- Women Prayer Hall level for Women Prayer Hall + Services
- 2 floor Accommodation building for Imam, Moazen & guardhouse

MOSQUES PROJECTS CAPABILITY STATEMENT - APG 2018

45 YEARS

HAMOUDAH BIN ALI MOSQUE

Al Ain

PROJECT DETAILS

Client	:	General Authority of Islamic Affairs & Endowments
BUA m2	:	(AWQAF)
Completion	:	1,800 M².
Cost (AED)	:	2006
APG role	:	22,000,000
	:	Lead Consultant, Concept Design, Detailed Design,

A Moroccan style that diverges from any other traditional Mosque due to the use of roof tiles, the expression of an eye-catching pyramid on top of the ensemble, instead of the traditional Dome which offers the surrounding different aesthetics for a place of worship. The arcades decorating the facades & connecting all features as a visual reference along with the Minaret that is slightly central & the colourful roof coverage contribute to the special features of this Mosque.

Components:

- Ground floor for Men Prayer Hall + Services
- First floor for Women Prayer Hall + Multipurpose Hall + Services
- Accommodation building for Imam & Moazen

AL JADDAF MOSQUE

Dubai

PROJECT DETAILS

Client : General Authority of Islamic Affairs & Endowments (AWQAF)
BUA m2 : 2,500 M².
Completion : 2012
Cost (AED) : 21,000,000.00
APG role : Lead Consultant, Concept Design, Detailed Design,
Engineering Design Services, Interior Design, Site Supervision
& AOR Services

A collaboration between our Architecture & Interior departments is what produced a design of harmony & complimentary between the Interior & Exterior. The Arches, Columns, Domes & Minaret reflect the beauty of Andalusian Architecture of Al Jaddaf Mosque. The use of materials such as Marble, Granite, Glass Reinforced Concrete, Stone & glazed Terracotta add finesse to the Mosque, as well as the top Gold plated Crescent.

Components:

- Basement for Parking
- Ground Floor Plan for Men Prayer Hall, Ablution area & washrooms
- Outdoor Prayer area & Water Salsabil
- Mezzanine floor for Women Prayer Hall & Ablution area
- 2 floor Accommodation building for Imam & Moazen

Completion : 2016
Cost (AED) : 44,800,000
APG role : Lead Consultant, Concept Design
Detailed Design, Engineering Design
Services, Interior Design, Site Supervision
& AOR Services

A Local Light Heritage Style, Jumma mosque that is composed of 2 levels ground & first. With a Simple Traditional Facades and arches passage that serve the Needs of all prayers through the important facilities Provided, The use of simple materials add finesse to the Mosque, as well as the top High Minaret beside the Entrance.

AL BASIT MOSQUE SE 41

Khalifa City, Abu Dhabi

A distinctive Fatimid Mosque, signified by its rising 60m Minaret that receives up to 2000 prayers. The main differentiator here is how the texture changes from smooth to rough, slicing the Exterior into stripes before inserting the Islamic features that are Arches & Mashrabiya. The whole is crowned by Crenellation of intricate details & a ribbed Dome.

Components:

- Ground floor for Men Prayer Hall + Ablution Area & Toilets + Services
- Mezzanine floor for Secondary Prayer Hall, Women Prayer Hall & Multipurpose Hall
- Accommodation building for Imam & Moazen

Amenities:

- Islamic Library
- Islamic Bookstore
- Men Quran recitation room

The wide circular wall comprises the Prayer Hall, & is accompanied by Services for Ablution, Imam house & Post-Modern style Minaret,

SHEIKHA SALAMA MOSQUE

Al Ain

PROJECT DETAILS

Client	: General Authority of Islamic Affairs & Endowments (AWQAF) Developed by Al DAR Properties
BUA m2	: 17,000 M².
Completion	: 2011
Cost (AED)	: 129,000,000.00
APG role	: Lead Consultant, Concept Design Development, Detailed Design, Engineering Design Services, Interior Design, Site Supervision & AOR

A special Historical value is held for being the largest Mosque in Al-Ain accommodating 4850 Men & 650 Women. A landmark of civilization & a touristic attraction point. This marvellous Mosque is equipped advanced A/C systems, the first of its kind in the city, as well as modern lighting system with colour changing effects for special religious occasions such as Ramadan & religious holidays. The window design maximizes the diffusion of natural light while a lighting system gradually increases the light intensity as we approach the Mihrab. The architectural design of the mosque blends Modern with Traditional in harmony with the surrounding urban context, while exterior colour is quasi similar to the sand of Al-Ain desert.

Components:

- 1 Basement level
- Ground floor for Men Prayer Hall
- Mezzanine floor for Women Prayer Hall

GHANEM BIN ALI HAMOUDAH MOSQUE

Abu Dhabi

PROJECT DETAILS

Client	: General Authority of Islamic Affairs & Endowments (AWQAF)

A parametric Jum'a Mosque that connects Man to the sky. Accommodating 850 prayers, this Contemporary style, diverges from any other traditional aesthetics of a Mosque, hence, the attached Minaret sloping diagonally & smoothly with stripped exterior cladding that reflects the Modern Theme. In addition to that, the traditional Mashrabiya is altered to a parametric pattern.

Components:

- Basement for Parking + Services
- Ground floor for Men Prayer Hall & Women Prayer Hall + Services
- 2 floor Accommodation building for Imam & Moazen

AL QAHAAR MOSQUE

Plot P1 SB-23, Sadyat Island, Abu Dhabi

PROJECT DETAILS

Client	:	General Authority of Islamic Affairs & Endowments (AWQAF)
BUA m2		Developed by MARYA International
Completion		12,078M ² .
Cost (AED)		Expected 2019
APG role		71,847,000 Lead Consultant, Concept Design, Detailed Design, Engineering Design Services, Interior Design, Site Supervision & AOR Services

A Light Emirati Heritage style that is shaped by the regional traditions of the time & place in the UAE. Its location in the beautiful Saadiyat Island of Abu Dhabi, has a considerable amount of influence the architecture of this Mosque, especially during Concept Design phase & Facade Design as well. Therefore, the ensemble that features repetitive pointed Arches, for both the frontage & corridors, ribbed Dome that crowns the whole & the double rectangular Minarets that stand with utter firmness, along with the surrounding picturesque trees, results in genuine Splendour to the Islamic aesthetic of this Mosque.
